Highly Recommend!

I just received the Family First Aid Kit today and went through it. I'm a CPR/AED & First Aid instructor so I wanted a nice kit for my house. I love that this kit is like a binder with rings that make it easy to flip through the sections. It has large pouches on the end to store items and papers. It also has "how to" instructions for aiding someone and a booklet about CPR. Definitely get this!

Good product, terrible shipping

The kit itself was great, had everything in it that was promised but the shipping took a week and a half longer than it should have and i even paid for the fast shipping. If you need it soon order like a month ahead of time because you will not get it on time like it says.

✔ Yes, I recommend this product.

Quality bag plus products, instructions and info!

This is a great bag full of medical emergency stuff and info regarding injuries, etc.! I bought 2 so that my wife and daughter could each have one in their cars! The bag and products inside are NOT cheap stuff! It’s very professional. Glad I got them!!

✔ Yes, I recommend this product.

Very comprehensive kit, but...

I'd like to see a lot less tiny/micro band-aids and a few more larger band-aids and/or trauma pads. Otherwise, this is a very nice kit to start with and add to in the future. It did meet the requirements of my first aid/cpr class in community college.
